Education

M.S. Ramaiah Institute of Technology (MSRIT) — Bangalore, India
Bachelor of Technology — Information Science and Engineering; CGPA: 9.36 — *Oct 2024 – Present*

Mahatma Hansraj Modern School — Jhansi, India
Class XII (PCM) — 94.4% — *Completed 2024*

Experience

Indian Institute of Technology, Roorkee
Summer Intern — *July 2026 – Present | Roorkee, Uttarakhand*

- Developing **GeoFusion AI**, combining Sentinel-2 optical and Sentinel-1/NISAR SAR data across **119 agricultural fields** to reconstruct crop-condition time series during up to 50-day cloud blackouts.
- Trained spatial-temporal ML models (XGBoost, Extra Trees) for cloud-gap reconstruction, achieving an RMSE of 0.1386 across **11,100+ fused pixel records** of regional validation data.
- Implemented a Flask dashboard integrated with **Google Earth Engine**, processing **78+ GB** of NISAR GCOV HDF5 pixel data with sub-second latency for real-time AOI queries.

AWS Cloud Club – MSRIT
Founding Core Member — *May 2025 – Present | Bangalore, India*

- Spearheaded community growth; delivered technical presentations on cloud infrastructure and **AWS** architecture (S3/EC2, shared responsibility model) to **500+ students**.

Achievements

- **Finalist, Meta PyTorch OpenEnv Hackathon** – Top 2.5% of 31,000+ registrations; Grand Finale, SST Bangalore (Apr 2026)
- **10th Rank**, IISc Open Day CP Contest, Bangalore (Mar 2026)
- **1st Place, AI Codefix 2025**, MSRIT
- **Finalist, Infotsav'25**, IIITM Gwalior
- **Pupil (Peak 1202)** on Codeforces – top 2% of 25,000+ participants: Profile Link
- **1st Place, AI Hackathon**, IISc Bangalore (May 2025)
- **Top 25 Teams (Internal)**, Smart India Hackathon 2025, MSRIT

Projects

Disaster Response OpenEnv | *HuggingFace, Python, Docker, LLM Agents* — GitHub | Mar 2026

- Created an emergency triage simulator for the **Meta OpenEnv Hackathon**, deployed on HuggingFace Spaces for real-time AI agent interactions, with a deterministic reward system across 15 disaster scenarios.
- Engineered a hybrid agent using a heuristic router for classification and **Qwen 72B** for note generation, achieving **92% routing accuracy** across test cases.

OmniQuery | *FastAPI, Express, MongoDB, Vector DB, RAG, Docker, CI/CD* — GitHub | 2026

- Architected a document intelligence workspace indexing **50+ PDFs (2,000+ pages)** asynchronously, with **Vector Search** retrieval and **Groq**-powered RAG answers in under **1.5 seconds**.
- Developed a 3-service microservices architecture (React/Vite, Express, Python/FastAPI) using **QStash** for background processing, reducing AI-generation job failures by **95%**.

Donum – NGO Donation & Relief Distribution | *Java, Servlets, JSP, MVC, SQL* — GitHub | 2025

- Designed an MVC architecture with secure authentication, automated tax receipts, and a dashboard tracking **5,000+ simulated donations** across 5 key operational metrics in real time.
- Devised a weighted AI matching algorithm cutting manual distribution-planning time by **40%**; used MySQL triggers/stored procedures to fully automate inventory deduction across **8 resource categories**.

Just Do It – Focus App | *C++, Windows APIs, Named Pipes, Firebase* — GitHub | 2025

- Developed a Windows focus suite coordinating a native C++ engine via named pipes, blocking **150+ distracting sites/apps** with strict background process termination.
- Integrated Firebase Auth/Firestore for cloud sync across **500+ simulated sessions**, with an offline-first retry queue achieving **99.9% sync success** on a real-time web dashboard.

Technical Skills

Languages: C++, Java, Python, JavaScript, SQL
AI & ML: LLM Fundamentals, Transformer Architecture, RAG, XGBoost, Vector Search
Frameworks & Tools: FastAPI, Google Earth Engine, HuggingFace, Firebase, AWS (EC2/S3), Git, Docker, MongoDB
Core CS: Data Structures & Algorithms, DBMS, Computer Networks, Operating Systems, OOP

Leadership & Extracurriculars

ClutchRIT Esports, MSRIT
Core Member — *Mar 2025 – Apr 2026*

- Served as public speaker and host, managing live engagement and tournament operations for events with **400+ attendees**.

Video Content Strategy
Producer & Editor — *Remote*

- Directed and edited digital content generating **10M+ views**; managed technical production for organization feeds.
